

QUALIFICATIONS

Jeanmarie has over 23 years of experience in Land Surveying. As a Field Survey Manager, Ms. Bostley verifies approved design plans in coordination with CAD files for construction staking calculations, prepares staking calculations, reviews as-staked data and prepares staking cut sheets. She also supervises and schedules the survey crews, while also working with the general contractors on projects. As a licensed Surveyor, she primarily oversees the staking calculations for construction projects. Jeanmarie also has the ability to use the latest computer software and perform professional surveying duties in research, analysis, and computation of property lines, right-of-way boundaries and political boundaries.

RELEVANT PROJECT EXPERIENCE

HORSESHOE PARK, 9800 DENALI DRIVE (City of Elk Grove, CA)

Performed construction staking calculations for a new 9.41-acre park which included Tennis Courts, Basketball Court, Picnic Area, Playgrounds and Horseshoe pits.

NORTH NATOMAS REGIONAL PARK PHASE 6, 2501 NEW MARKET DRIVE (City of Sacramento, CA)

Performed construction staking calculations for new construction of approximately 10 acres of park expansion. Improvements constructed included two baseball fields, Amphitheater, and additional fields. Prepared as-built survey to verify grades of baseball infields prior to project sign-off.

MID PENINSULA REGIONAL OPEN SPACE DISTRICT (Santa Clara & Santa Cruz Counties, CA)

Conducted boundary research. Oversaw field crews. Worked with the District & their clients to coordinate multiple rural Lot Line Adjustments and prepare subsequent Records of Survey. Prepared legal descriptions and plats for the various Lot Line Adjustments.

SMUD SOLANO PHASE 4 (Solano County, CA)

Conducted boundary analysis and prepared an ALTA survey of SMUD Solano Phase 4 project consisting of 30 parcels. Reviewed record maps, existing deeds and over 280 easement documents to prepare the ALTA survey.
